

**HVI - The World's Source for High Voltage Test Equipment**

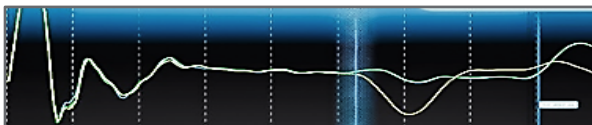

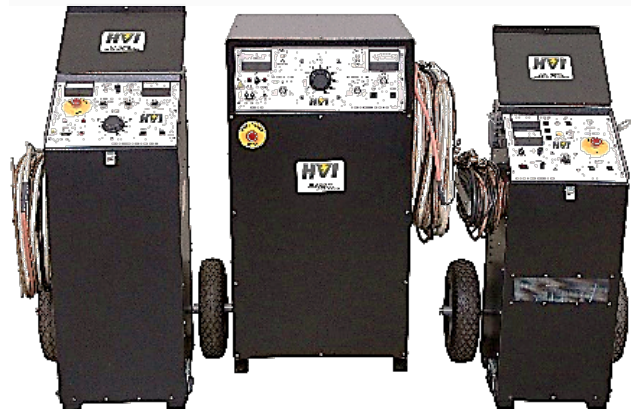

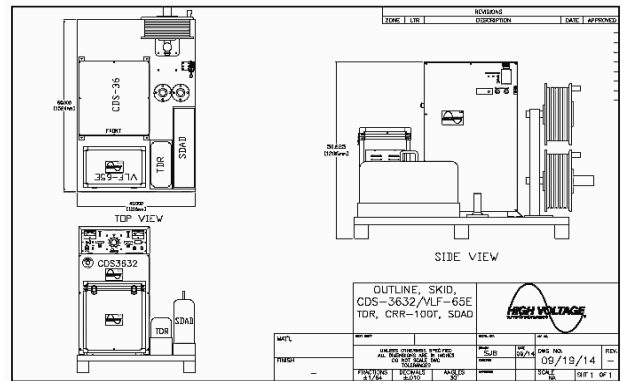

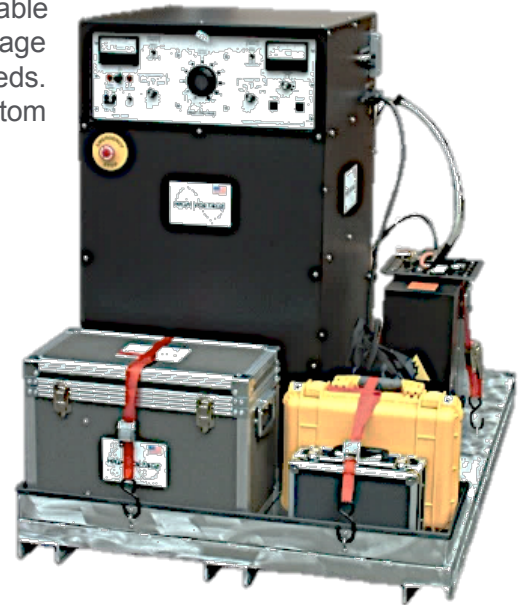

Advanced test equipment for high voltage proof and preventive maintenance testing of electrical apparatus hvinc.com

## CABLE TESTING & FAULT LOCATING ~ Custom Packages

HVI designs and produces many of the best products for high voltage cable testing and cable fault locating. Let HVI help you design a custom package with the **right tools and optimal layout** to best fit your vehicle needs. Don't dedicate a van to only cable work when you can slide your custom designed skid in and out when needed for total flexibility & convenience.

### Select Your Instruments ~ HVI Will Build It

- ⚡ 0.1 Hz. VLF AC Hipots: 30 kVac – 120 kVac
- ⚡ 50/60 Hz. AC Hipots: 10 kVac – 100 kVac
- ⚡ Partial Discharge & Tan Delta Measurement Options
- ⚡ DC Hipot/Megohmmeter Models: 15 kVdc – 200 kVdc
- ⚡ Thumpers/Surge Generators: 5 kVdc – 36 kVdc to 3200 joules
- ⚡ VLF/Thumper Combo: 0 - 33 kVac @ 1  $\mu$ F with VLF Cable Burner
- ⚡ TDR/Radar Instruments (arc reflection filter internal to thumper)
- ⚡ Cable Reels: 100'/30m HV & ground cable with MC connectors
- ⚡ Various Cable-end Accessories for VLF and Thumper
- ⚡ Customized Aluminum Skid: permanent or removable
- ⚡ Fault Finding Listening/Pinpointing Devices: for URD & Networks
- ⚡  $\Omega$ -Check<sup>®</sup> Concentric Neutral Resistance Tester

All HVI Products are  
**MADE IN THE USA**
